# NATURAL DISASTERS IN MALAYSIA

- Unexpected weather patterns, leading to unpredictable seasonal forecasts.
- Monsoon seasons no longer happening within their normal times.
- Unexpected rainfalls, uncertainty of rain prediction which leads to flooding.

# FOOD SECURITY

Quality of life is severely affected

Usage of chemicals for mass production / excessive waste products affecting the quality of healthy soil

Promote regenerative farming

# HEALTH DEGRADATION

Air pollution / haze - leads to stroke, lung cancer, heart disease

Water pollution - If a water source becomes contaminated due to pollution, it can lead to health issues in humans, such as cancer or cardiovascular conditions.

# HUMAN LIFE IN DANGER

“The recent fatal attack by a tiger and several sightings of the mammal near Orang Asli villages in the district on logging activities that caused wildlife to lose their habitats.”
